Typical properties of flat-woven fabrics

Fabrics in which two groups of threads cross at right angles are called flat-woven fabrics. Even normal sitting can cause small bobbles on the surface. This is known as "pilling".

Pilling can be caused by loose fibres in the yarn twisting together, or by foreign fibres (e.g. from clothing, blankets, etc.) that get onto the cover. This is called foreign pilling. Pilling is easily removed with a standard lint shaver without damaging the fabric fibres, and the durability of the fabric is not affected. Flat-woven fabrics with a high proportion of natural fibre should not be exposed to direct sunlight, as the cover fabric can quickly fade.

Variations in colour and structure cannot be avoided in series production. Shiny patches and pilling may appear with use. Fabrics shimmer, so their appearance can vary. Flat-woven fabrics can roughen with use and develop shiny areas. This does not affect use or lifespan. Wrinkling in the seat and back areas is typical of the model and material and is not grounds for complaint.

Comfort mattresses – craftsmanship "Made in Germany"

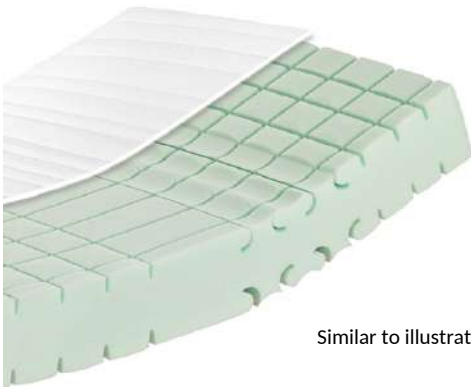

Prices are listed with each bed size on the following pages.

Turning and airing the mattress regularly extends its life.

The mattress cover (the same on all mattress types):

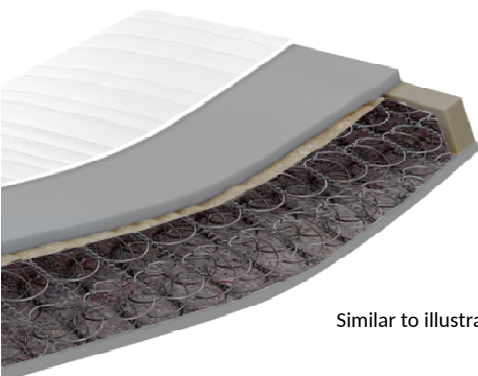

- white lyocell stretch cover, 62% polyester, 38% lyocell
- quilted with 400 g/m² polyester climate fibre
- for perfect hygiene: the cover is washable up to 60 °C
- easy to wash thanks to a divisible, removable cover (with zip)
- retaining loops stop the mattress slipping in the cabinet. The mattress is held securely, so the mechanism in the cabinet works correctly.

Similar to illustration

Comfort foam mattress

- shape-retaining polyether foam, water-blown using the TDI process. Durable and robust
- incl. 7 ergonomic zones
- lumbar support
- distinct shoulder comfort zone
- lengthwise and crosswise cuts for better core ventilation

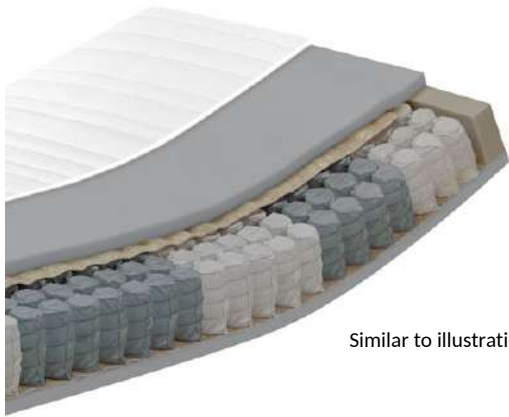

Similar to illustration

Spring mattress

- robust Bonnell spring core
- flexible spring core cover
- high-quality foam padding all round
- firm seating edge

Prices are listed with each bed size on the following pages.

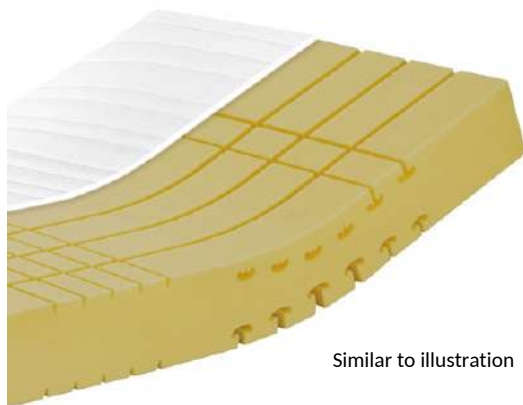

Turning and airing the mattress regularly extends its life.

Similar to illustration

Pocket spring mattress

- incl. 7 ergonomic zones (7-zone barrel pocket spring core)
- 434 springs for a bed size of approx. 100 x 200 cm
- soft special padding layer for optimal adaptability
- extra thick elastic foam padding
- firm seating edge
- total mattress height approx. 20 cm

Similar to illustration

Cold foam mattress

- high-quality cold foam partly made with natural soy oil
- high resilience and durability
- elaborate 7-zone cut
- lumbar support
- especially distinct, elaborate shoulder comfort zone
- lengthwise and crosswise cuts for better core ventilation
- especially good body contouring
- total mattress height approx. 20 cm

Similar to illustration

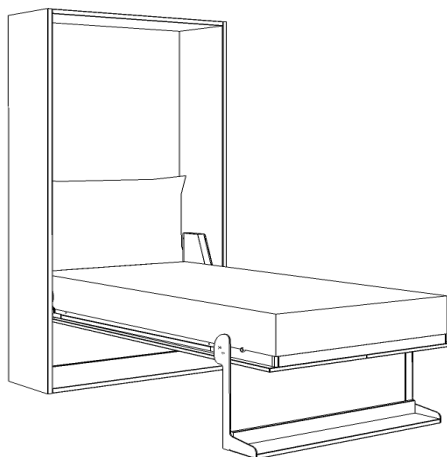

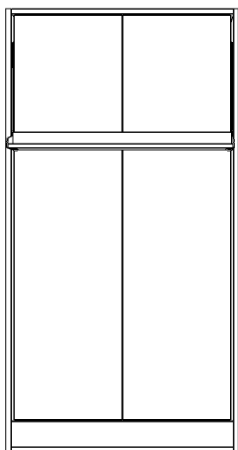

Gel foam mattress

- gel-like soft foam, extremely open-celled
- good moisture and heat regulation
- highly breathable
- very good pressure relief
- can only be used on one side
- total mattress height approx. 20 cm

Note

All mattress covers have a loop to hold the mattress securely in the cabinet. If another mattress is used, we accept no liability for the mattress slipping in the cabinet and give no guarantee that the bed will convert correctly. High body weight can lead to premature wear.

Planning example with panel and wall shelves

A drilling template for panels is included

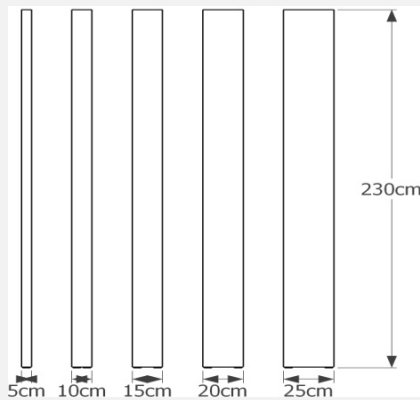

Filler material (ceiling and wall fillers & side panels)

Type	Description	W ca.	H ca.	D ca.	PG1	PG2	PG3	PG4
------	-------------	-------	-------	-------	-----	-----	-----	-----

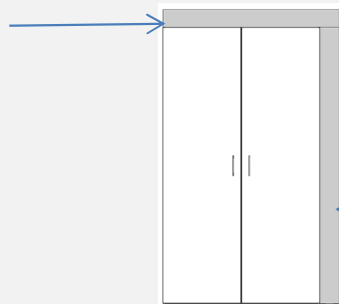

- all dimensions in cm -

2500		5	230	1,9
2501		10	230	1,9
2502		15	230	1,9
2503		20	230	1,9
2504		25	230	1,9

Other sizes possible
Price on request

Height filler

Side
or depth filler

Note: in the veneer finish, the veneer grain always runs lengthwise

2525-L/R Side panel		1,9	230	42
2535-L/R Side panel		1,9	230	60

When are side panels needed?

- where furniture of different depths meets
- for on-site panelling
- visually thicker carcass side

Side panel
