General programme information

Colour combinations

Three different colour finishes are possible per plan:

- => Carcass
- => Front
- => 8 mm top and bottom panel

As standard, the 8 mm top and bottom panel is made in the chosen carcass finish. On request, the "frame" can be made in a contrasting colour in any carcass finish. If a contrasting veneer is required, a surcharge per piece applies when the carcass is in decor. The surcharges are listed under accessories.

Example no. 1:

Carcass:	White decor
Front:	Light grey decor
8 mm top and bottom panel:	Slate grey decor
=> Priced in price group 1	

Example no. 2:

Carcass:	Polar white decor
Front:	Lacq. polar white
8 mm top and bottom panel:	Wild oak veneer
=> Priced in price group 2 plus surcharge for "top and bottom panel contrasting in veneer"	

On request, the 8 mm bottom and top panel on sideboards, lowboards, wall units, highboards and writing desks can also be supplied in one piece (up to a maximum width of 240 cm). With beds and with types 185.4 and 230 cm high, the panel is always made separately.

Other information

- Programme number: 210
- handleless front with push-to-open fittings (for design reasons this creates a gap of approx. 4.5 mm)
- 10 cm floor clearance! No problem for vacuum cleaners, mops or robot vacuums (=easy to clean)
- 2 foot colours available: the standard version is black (=foot no. 1) – on request also available in aluminium colour (=foot no. 2).
- all drawers with full extension
- drawer bottoms and sides always anthracite
- shelves and carcass sides 19 mm thick
- top and bottom panel = 8 mm (available together in a contrasting colour)
- aluminium-framed glass doors with toughened safety glass
- glass shelves 8 mm thick (clear glass)
- wardrobes and linen cupboards are supplied as standard with a continuous row of holes in the carcass sides (32 mm system) (optional at extra cost for all other types).
On all other units the shelves can be set at three heights.
- wardrobe back panel always in white decor

Ordering information

- When the bed is closed, the bed fitting is not visible from outside (carcass)
- beds come as standard with white back panel, white book shelf and white mattress frame
- inner bed shelves (accessory) also always in white decor
- top panel of HORIZONTAL beds also in white decor as standard, with edge in carcass finish
- To compensate for uneven floors, height adjusters for the feet are included. They come loose in the fittings bag and can easily be screwed under the feet if needed.
- We give no guarantee for the correct function of the bed with the customer's own mattresses.
- All beds and wardrobes/linen cupboards are delivered unassembled or partly assembled.
- Living units, lowboards, sideboards, highboards and other types are delivered assembled; only the feet need to be screwed on during final assembly.
- Top units and wardrobes should also be fixed to the wall.
- all dimensions given for upholstery and mattresses are APPROXIMATE!
- each type lists a selection of frequently ordered accessories.
- The programme can be planned with Furnplan.
- custom sizes possible on request
- We give a 5-year guarantee on: the strength of the carcass and joints, the full function of all parts and the durability of the surface.

Errors excepted. Changes to design, colour and material in the interest of technical progress reserved.

Custom sizes? No problem!

Surcharges for size reductions:

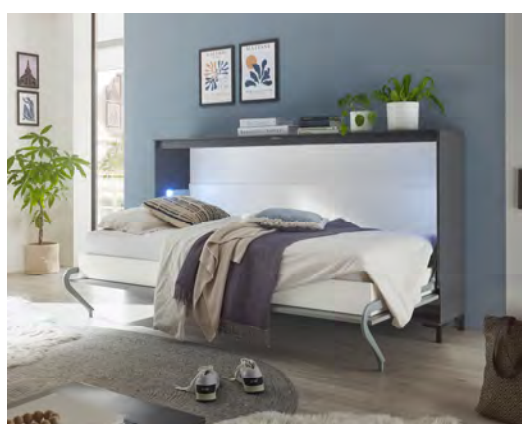

- Width reduction + 30 %
- Height reduction + 30 %
- Depth reduction + 30 %

Please note:

Types can be reduced by up to 30 cm in depth and width. Units with glass doors cannot be reduced in width, height or depth. Drawers cannot be reduced in height. Every custom order must be finally approved by our technical department. Other individual custom designs are of course also possible. We cannot show every option here – so just give us a call: +49 (0)5223 9880

The Comfort wall beds

Comfort wall beds (vertical)

All vertical wall beds come as standard with a slatted frame with adjustable firmness (incl. adjustable head section) and a loose foam mattress with detachable head section. From a bed width of 160 cm, the beds have 2 slatted frames and two foam mattresses. All beds have feet that fold in and out automatically.

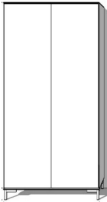

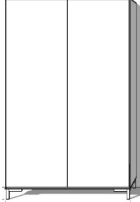

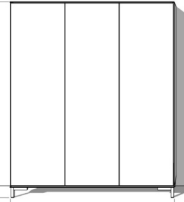

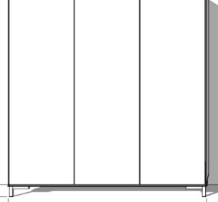

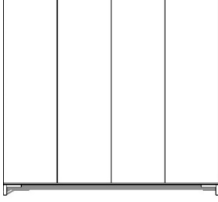

Thanks to the folding head section (slatted frame and mattress), the total height of the bed cabinet without top unit is approx. 185.4 cm. The total depth with the bed folded down is approx. 224 cm. The beds open easily and comfortably.

The mattress frame and back panel are white decor as standard. Higher-quality mattresses and a mattress protector are available at extra cost. The bed height of approx. 59 cm makes it especially easy to get up – and the bed length of 205 cm offers plenty of room. The 3D-design bed foot is aluminium as standard, in silver (RAL 9006). Height adjusters under the feet compensate for uneven floors.

Overview

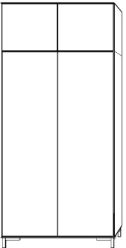

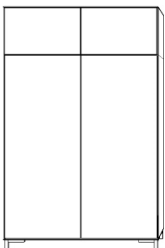

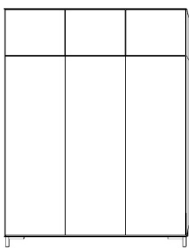

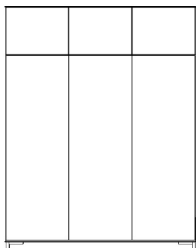

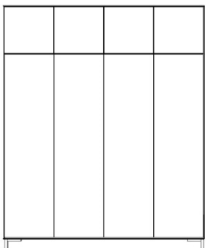

Height: 185 cm

All beds are delivered unassembled!

				
86 x 205 cm	110 x 205 cm	140 x 205 cm	2 x 80 x 205 cm Beds fold out together	2 x 86 x 205 cm Beds fold out together

Height: 230 cm

All beds are delivered unassembled!

				
86 x 205 cm	110 x 205 cm	140 x 205 cm	2 x 80 x 205 cm Beds fold out together	2 x 86 x 205 cm Beds fold out together

Comfort wall beds (horizontal)

The horizontal wall bed comes as standard with a slatted frame with adjustable firmness and feet that fold in and out automatically. The total depth with the bed folded down is, depending on bed size, approx. 127 or 177 cm. The mattress frame, top panel and back panel are always in white decor. The beds are delivered unassembled.

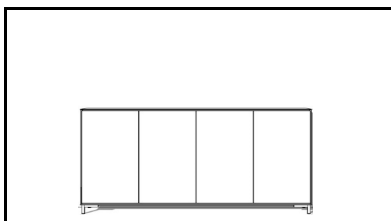

Note:

You can use your own mattresses in our horizontal beds. For the bed to close, the mattress must not be higher than 18 cm. With an upholstered headboard it must not be higher than 15 cm. Please note that in this case the bed can only be closed without a duvet! We give no guarantee for the correct function of the bed with the customer's own mattresses.

Overview horizontal beds

Slatted frame (similar to illustration)

Standard slatted frame for vertical wall beds

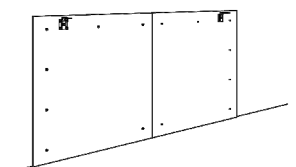

Standard slatted frame for horizontal beds

Standard slatted frame for horizontal beds incl. adjustable head and foot sections

Wall beds must always be anchored to a solid wall. The beds must not be folded down unless secured.

For lightweight walls we offer a bed fixing set. It consists of one or more 19 mm melamine-faced chipboard panels in the carcass colour, incl. expansion plugs, wooden dowels and bed bracket screws.

Quality mattresses at a glance

There are 5 versions to choose from. In the vertical beds, the mattresses consist of 2 parts (head and lying section). To turn the mattress, the lying section can be detached from the head section (with a zip). For the horizontal beds we offer one-piece mattresses. Prices and order numbers are listed in the type list under each bed size.

Mattress cover

All mattresses have the same cover. It is made of a high-quality, breathable double cloth. Composition: 62 % polyester and 38 % lyocell. Lyocell is a fibre with high wet and dry strength. Moisture is absorbed well, and the cover creases little and feels pleasant. The cover is fully removable and washable at 60 °C – suitable for allergy sufferers. The mattresses also have a side border, which gives a better fit and a cubic look. The double cloth is quilted with a high-quality climate fibre. This polyester fibre is very absorbent, takes up moisture released by the sleeper at night, draws it away from the body and releases it again during the day.

General quality features

Cover of skin-friendly double cloth to Oeko-Tex Standard 100

Made CFC-free

Suitable for adjustable slatted frames

Polyether foam mattress

Similar to illustration

The mattress has a rather firm feel. In return it is very robust and durable. **Total mattress height is approx. 15 cm.**

- approx. 14 cm high, shape-retaining polyether foam core for good air and moisture exchange

- inner cover to protect the core

- suitable for allergy sufferers

Spring mattress

Similar to illustration

The Bonnell spring core gives firmer body support and suits heavier people, as all springs are joined with wire at the upper coils and so form a strong unit.

Total mattress height is approx. 15 cm.

- 9 cm high 4-turn core with 2.2 mm wire – core height approx. 14 cm

- breathable and flexible padding

- soft and elastic padding layer plus inner cover to protect the core

- suitable for allergy sufferers

Quality mattresses at a glance

Pocket spring mattress

Similar to illustration

In the pocket spring mattress each spring sits in its own pocket and the springs are only joined in the middle. This gives higher point elasticity than a Bonnell spring core. The mattress breathes very well, as the core is also very air-permeable.

Total mattress height is approx. 15 cm.

- adaptable 9 cm high barrel pocket spring core with 1.8 mm wire for point-elastic comfort

- breathable and flexible padding

- soft and elastic padding layer plus inner cover to protect the core

- suitable for allergy sufferers

Cold foam mattress

Similar to illustration

Cold foam mattresses have better point elasticity and greater resilience than normal foam mattresses. During production they are strongly compressed. This opens the pores in the foam and makes the mattress more open-celled, which is good for its breathability.

Total mattress height is approx. 15 cm.

- approx. 14 cm high open-cell, highly elastic cold foam core, RG45

- reinforced centre zone

- softer shoulder zone for better sleep quality

- suitable for allergy sufferers

- inner cover to protect the core

- 7-zone cut

Gel foam mattress

Similar to illustration

The gel-like soft foam is extremely open-celled and, thanks to excellent moisture and heat regulation, high breathability and optimal pressure relief, gives optimal sleeping comfort. The mattress can only be used on one side.

Total mattress height is approx. 15 cm.

- approx. 3 cm high open-cell, gel-like soft foam

- highly breathable

- two-layer core with 10 cm cold foam base

- inner cover to protect the core

- very good pressure relief

- suitable for allergy sufferers

Fabrics for the upholstered headboards

Among other accessories, we offer an upholstered headboard (backrest) for the wall beds. Choose from the fabrics below:

Fabric Asti: 100% PES | 50,000 rubs | Pilling: 3-4 | Light fastness 4 | incl. stain protection

Asti uni royal

Asti uni silver

Asti uni stone

Asti uni espresso

Asti uni black

Asti uni cream

Asti uni anthracite

Asti uni beige

Asti uni red

Asti uni olive

Fabric Artemis: 100% PES | 45,000 rubs | Pilling: 4-5 | Light fastness 4-5

Artemis anthracite

Artemis beige

Artemis camel

Artemis espresso

Artemis stone

Artemis cappuccino

Artemis light grey

Artemis silver

Artemis jeans

Artemis elephant

Fabric Atlantis: 100% PES | over 38,000 rubs | Pilling: 5 | Light fastness 6

Atlantis anthracite

Atlantis beige

Atlantis jade

Atlantis grey

Atlantis light grey

Atlantis macchiato

Atlantis midnight blue

Atlantis silver

Fabric Aura: 100% PES | over 100,000 rubs | Pilling: 3 to 4 | Light fastness: 6

Aura cream

Aura silver

Aura grey

Aura stone

Aura flamingo

Aura anthracite

Typical properties of flat-woven fabrics

Fabrics in which two groups of threads cross at right angles are called flat-woven fabrics. Even normal sitting can cause small bobbles on the surface. This is known as "pilling". Pilling can be caused by loose fibres in the yarn twisting together, or by foreign fibres (e.g. from clothing, blankets, etc.) that get onto the cover. This is called foreign pilling. Pilling is easily removed with a standard lint shaver without damaging the fabric fibres, and the durability of the fabric is not affected. Flat-woven fabrics with a high proportion of natural fibre should not be exposed to direct sunlight, as the cover fabric can quickly fade.

Variations in colour and structure cannot be avoided in series production. Shiny patches and pilling may appear with use. Fabrics shimmer, so their appearance can vary. Flat-woven fabrics can roughen with use and develop shiny areas. This does not affect use or lifespan. Wrinkling in the seat and back areas is typical of the model and material and is not grounds for complaint.
